Class Preparation and attendance:

Students are expected to attend all Laboratory sessions. Every effort should be made to arrive on time, as important pre-lab advisories will be given at the start of each session. The student is individually responsible for the timely completion of all assignments, regardless of any reason of absence.

Reading assignments, which will be given in lecture, should be completed prior to the following lecture and will constitute the quiz material.

All tests taken must represent your individual unaided efforts. To receive or offer information during an exam will be viewed to be cheating, so too will be the use of unauthorized material and/or falsification or alteration of data.

Safety glasses will be required to be worn whenever you are present in the laboratory.

Teaching Schedule: The lab/lecture schedule listed in the GSU laboratory manual will be adhered to as far as is possible.

The University requires that faculty members must, on a date after the mid-point of the course to be set by the Provost (or his designee)

1. Give a WF to all students who are on their rolls but are no longer taking the class and
2. report the last day the student attended or turned in an assignment.

Students who are withdrawn may petition the Departmental Chair for reinstatement into their classes.

NOTE:
Students are requested NOT to bring cellular telephones and/or pagers to lectures or exams. Persons violating this request will be asked to leave the room.

*Deviations from this syllabus may be required.
