Quick Notes

You must take 39 semester hours of 3000/4000 level credit to meet your GSU residency requirement.

You must also have a total of 120 semester hours of college course work to earn a degree from the chemistry department; this excludes 1000/2000 physical education problems courses/tutorials, or military science courses. The department recommends that majors take computers and/or foreign language courses.

A Grade of C- does not count toward your major and will not be used as a pre-requisite.

You must have a 2.0 GPA in your residency hours as well as your institutional GPA.

Quick Notes Continued:

CHEM 2010 can be replaced by CHEM 2950 (Research), Math 1070 (Elementary Statistics), or BIOL 2300 (Microbiology & Public Health)

If you plan to take the GRE subject Chemistry Exam, move CHEM 4210 to your junior year, and discuss options with an advisor.

If any of the information printed here is different from the university catalog, the catalog is correct.
