Sophomore Research Seminar: CHEM 2950

Are you a **Chemistry major** who has earned 15 to 45 credits?

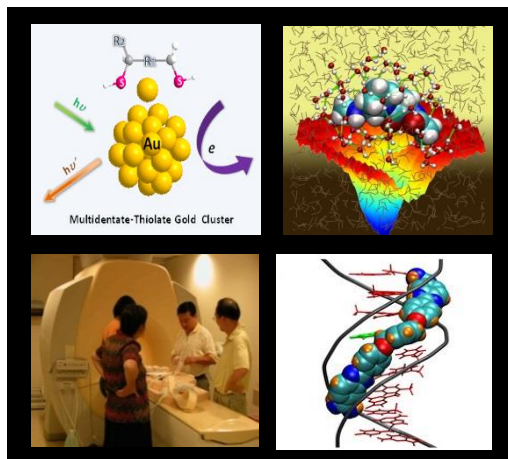

Are you interested in learning about:

- undergraduate research
- career opportunities
- graduate school
- Biochemistry concentration
- summer research positions
- internships
- ACS accreditation

Take CHEM 2950 in Fall 2017!!!! CRN 86769

We will hear from **chemistry faculty** about their **research** & explore:

- different disciplines of chemistry
- various career paths for a chemistry major
- how to effectively write a scientific paper
- how to search databases and use chemistry related software

Come explore the possibilities on Fridays 10:20am - 11:50am

This course replaces Chem 2010
