Organic Chemistry I

Course: CHEM 2400, CRN 80099/81663 (3 credits)
Semester: Fall 2020
Instructor: Dr. Joan Mutanyatta-Comar
E-mail: jmutanyattacomar@gsu.edu
Office hours: Online by WebEx. Will be scheduled on iCollege.
               WF: 2:00 pm – 3:00 pm & Thursday 12:00 pm -1:00 pm.

Course Description

This is CHEM2400: Organic Chemistry I. It is the first of a two-semester sequence of Organic Chemistry and is taught by faculty at Georgia State University’s Chemistry Department. Topics include IUPAC nomenclature, reactions, methods of preparation and physical and chemical properties of the common classes of carbon compounds, with an emphasis on modern electronic and mechanistic theories. This course is designed for students majoring in science, engineering, pre-medicine, pre-dentistry, and pre-pharmacy.

This course will be taught 100% online via iCollege and is fully asynchronous. However, there will be synchronous office hours via WebEx on iCollege. You have the option to work through the material at your own pace. However, matching your pace with the schedule outlined in the syllabus will ensure that you have completed each module before taking quizzes and exams.

I expect that full participation in this course will require approximately 12 hours per week, which involves interacting with readings, videos, and completing assessments.

****Please do note that this syllabus reflects a plan for the semester. Deviations may become necessary as the semester progresses.****

Learning Outcomes

Upon completion of this course, you should be able to:

- Identify and write names of organic compounds based on functional groups present in compounds.
- Evaluate the relationship that exists between the structure of an organic molecule and its physical and chemical properties.
- Demonstrate writing organic chemistry mechanisms and predicting the outcome of organic reactions.
- Analyze and design multi-step syntheses of organic compounds.
- Analyze, interpret data and develop logical conclusions based on organic chemistry concepts.
Your new skills should help you in the following ways:

- Prepare you for Organic Chemistry II and Biochemistry which are required/recommended for medical, pharmacy, dental, veterinary schools etc.
- Prepare you for other STEM disciplines such as chemical engineering.
  Understanding the properties of organic molecules and how reactions occur is critically important to understanding the processes in an industrial plant.
- Organic chemistry teaches important career readiness competencies and skills such as critical thinking/problem-solving skills, teamwork, and work ethics.

Schedule

Although this is an online course, we do have a set schedule. You’ll want to refer to the calendar below frequently as we work together. I’ve also designed the iCollege course in such a way to help us all stay on track, including building in Weekly Modules, Quizzes, Exams and Due Dates Attached To Graded Items. If this is your first time taking an online course, you’ll want to review resources for learning remotely at GSU’s CETL website. Please note that deviations may become necessary as the semester progresses. Therefore, please check iCollege announcements daily.

This course consists of a welcome module, 11 modules and a wrap-up module. The eleven modules are equivalent to 11 chapters to be covered in this course from the textbook Organic Chemistry by John McMurry, 9th Ed. Each module, along with the wrap-up module, has a suggested start date. You have the option to work through the material at your own pace. However, matching your pace with the schedule outlined in the syllabus will ensure that you have completed each module before taking quizzes and exams. While you’re working, I’ll also be working hard to give you quality feedback and grade your assessments immediately after the due dates.

So, how much time do you need to spend working on this course? Well, since this is a 3-Credit Hour course GSU recommends that you spend around 3 hours or more per week interacting with readings, videos, and other sorts of content and then 3 hours per credit hour per week completing activities and assessments (Total = 12 hours/week).

Please talk to your instructor and your advisor before withdrawing from this course. We care about your success and are here to discuss your options with you. The last day to withdraw without penalty is October 13, 2020.
Your To-do List

Below is a list of your assignments, along with due dates and the purpose of the assignments. Details of the material that will be covered on each quiz and exam will be also be indicated in the announcements prior to the respective quizzes and exams.

Welcome Module (August 24)

- Look at the Welcome module, meet your instructor and read the syllabus in detail. This will help you familiarize yourself with the requirements for this course.
- Do the Welcome Module Quiz-This quiz encourages you to begin thinking about the course content and plan how to meet the requirements outlined in the syllabus to ensure successful completion of this course.

Module 1: Chapter 1 (August 24-August 28)

- Watch videos uploaded on iCollege
- Quiz 1 (10 points): Friday 8/28/20 (8:00 am) – Sunday 8/30/20 (11:59 pm)
  - Module 1: Chapter 1: Slides 1-17

Module 2: Chapter 2 (August 31-September 4)

- Watch videos uploaded on iCollege
- Quiz 2 (10 points): Friday 9/4/20 (8:00 am) – Sunday 9/6/20 (11:59 pm)
  - Module 1: Chapter 1: Slides 18-19
  - Module 2: Chapter 2: Slides 1-10

September 7: Labor Day Holiday

Module 3: Chapter 3 (September 8-September 16)

- Watch videos uploaded on iCollege
- Quiz 3 (10 points): Friday 9/11/20 (8:00 am) – Sunday 9/13/20 (11:59 pm)
  - Module 2: Chapter 2: Slides 11-20
- Exam 1 (70 points): Friday 9/18/20 (8:00 am) – Sunday 9/20/20 (11:59 pm)
  - All Material in Modules 1 &2 and
  - Part of Module 3 (only slides 1-18)
  - Multiple choice questions + written response questions

Module 4: Chapter 4 (September 21-September 25)

- Watch videos uploaded on iCollege
- Quiz 4 (10 points): Friday 9/25/20 (8:00 am) – Sunday 9/27/20 (11:59 pm)
  - Module 3: Chapter 3: Slides 19-27
Module 5: Chapter 5 (September 28-October 7)
- Watch videos uploaded on iCollege
- Quiz 5 (10 points): Friday 10/2/20 (8:00 am) – Sunday 10/4/20 (11:59 pm)
  - Module 4: Chapter 4: Slides 1-13
- Exam 2 (70 points): Friday 10/9/20 (8:00 am) – Sunday 10/11/20 (11:59 pm)
  - Remaining of Module 3 (from slides 19-27)
  - All of Modules 4 & 5
  - Multiple choice questions + written response questions

October 13: Last day to withdraw with grade “W”

Modules 6&7: Chapters 6&7 (October 12-October 21)
- Watch videos uploaded on iCollege
- Quiz 6 (10 points): Friday 10/16/20 (8:00 am) – Sunday 10/18/20 (11:59 pm)
  - Module 6&7: Chapter 6&7: Slides 1-10

Module 8: Chapter 8 (October 22-November 2)
- Watch videos uploaded on iCollege
- Quiz 7 (10 points): Friday 10/23/20 (8:00 am) – Sunday 10/25/20 (11:59 pm)
  - Module 6&7: Chapter 6&7: Slides 11-27
- Quiz 8 (10 points): Friday 10/30/20 (8:00 am) – Sunday 11/1/20 (11:59 pm)
  - Module 8: Chapter 8: Slides 1-13
- Exam 3 (70 points): Friday 11/6/20 (8:00 am) – Sunday 11/8/20 (11:59 pm)
  - Modules 6, 7 & 8: Chapters 6, 7 & 8
  - Multiple choice questions + written response questions

Module 9: Chapter 9 (November 3-November 9)
- Watch videos uploaded on iCollege
- Quiz 9 (10 points): Friday 11/13/20 (8:00 am) – Sunday 11/15/20 (11:59 pm)
  - Module 9: Chapter 9: Slides 1-11

Module 10: Chapter 10 (November 10- November 16)
- Watch videos uploaded on iCollege
- Quiz 10 (10 points): Friday 11/20/20 (8:00 am) – Sunday 11/22/20 (11:59 pm)
  - Module 10: Chapter 10: Slides 1-19
Module 11: Chapter 11 (November 17-20 then November 30-December 7)

- Watch videos uploaded on iCollege
- Exam 4 (70 points): Friday 12/4/20 (8:00 am) – Sunday 12/6/20 (11:59 pm)
  - Modules 9&10
  - Part of Module 11 (only from slides 1-14)
  - 35 multiple choice questions, 2 points per question
- Quiz 11 (10 points): Friday 12/4/20 (8:00 am) – Monday 12/7/20 (11:59 pm)
  - Module 11 (only from slides 1-18)

November 23-28 Thanksgiving Break

Wrap-up:

- Final Exam: Cumulative - based on all content in modules 1-11
  - 60 multiple choice questions, 1 point per question
  - Thursday 12/10/2020 (8:00 am) to Saturday 12/12/2020 (8:00 pm)

List of modules (=chapters) and topics to be covered in Organic Chemistry I, CHEM 2400 (Book: Organic Chemistry by McMurry 9th Ed.)

1. **Module 1: Chapter 1- Structure and Bonding**
   Atomic structure (nucleus, orbitals, electronic configurations), chemical bond theory (valence bond theory and molecular orbital theory), hybridization (carbon, nitrogen, oxygen, phosphorus and sulfur), drawing chemical structures.

2. **Module 2: Chapter 2-Polar Covalent Bonds; Acids and Bases**
   Electronegativity, dipole moments, formal charges, resonance, acids and bases (the Bronsted-Lowry definition, pKa, acid and base strength, organic acids, organic bases, the Lewis definition).

3. **Module 3: Chapter 3-Organic Compounds: Alkanes and their Stereochemistry**
   Functional groups, alkane and alkane isomers, alkyl groups, naming alkanes, properties of alkanes, conformations of alkanes.

4. **Module 4: Chapter 4-Organic Compounds: Cycloalkanes and their Stereochemistry**
   Naming cycloalkanes, cis-trans isomerism in cycloalkanes, stability of cycloalkanes (ring strain), conformations of cycloalkanes, conformations of cyclohexanes (monosubstituted, disubstituted, trisubstituted etc).

5. **Module 5: Chapter 5-Stereochemistry at Tetrahedral Centers**
   Enantiomers and the tetrahedral carbon, chirality, optical activity, sequence rules for specifying configuration, diastereomers, meso compounds, racemic mixtures and the resolution of enantiomers, a review of isomerism, chirality at nitrogen, phosphorus and sulfur, prochirality.

6. **Module 6&7: Chapters 6 & 7**
   Naming alkenes, cis-trans isomerism in alkenes, E/Z designation in alkenes, calculating degree of unsaturation, types of organic reactions, stability of alkenes,
describing a reaction (rates, energy changes, energy diagrams, transition states, intermediates), electrophilic addition reactions of alkenes (Markovnikov’s rule), carbocation structure and stability, carbocation rearrangements, bond dissociation energies.

7. Module 8: Chapter 8-Alkenes: Reactions and Synthesis
Preparation of alkenes, reactions of alkenes: halogenation, halohydrin formation, hydration (oxymercuration and hydroboration), hydrogenation (reduction), oxidation (epoxidation, hydroxylation, cleavage to carbonyl compounds), addition of carbenes (cyclopropane synthesis), reaction stereochemistry (addition of water to an achiral and a chiral alkene).

Naming alkynes, preparation of alkynes (elimination reactions of dihalides), reactions of alkynes (halogenation, addition of HX, hydration, reduction, oxidative cleavage), alkyne acidity (formation of acetylide anions), alkylation of acetylide anions, an introduction to organic synthesis.

9. Module 10: Chapter 10-Organohalides
Naming and structure of alkyl halides, preparation of alkyl halides (addition of HX to alkenes, radical halogenation of alkanes, allylic bromination of alkenes, from alcohols), stability of allyl radical, reactions of alkyl halides (Grignard reagents), organometallic coupling reactions, oxidation and reduction in organic chemistry.

10. Module 11: Chapter 11-Reactions of Alkyl Halides: Nucleophilic Substitutions and Eliminations
The SN2, SN1 E2, and E1 reactions and their characteristics, Zaitsev’s rule, the E2 reaction and cyclohexane conformation.

Grading and Assessments

Grading
This is how the chemistry department awards grades for courses:

- **A+** = 95%; **A** = 90%; **A-** = 87%; **B+** = 84%; **B** = 80%; **B-** = 77%; **C+** = 74%; **C** = 70%; **C-** = 67%; **D** = 60%; **F** = < 60%

Note: CHEM 2400 is a prerequisite for Organic Chemistry II (CHEM 2410). A grade of “C” or higher in CHEM 2400 is required for registration into CHEM 2410.

Assessments
I have designed a variety of assessments to help you develop and practice critical thinking/problem-solving skills you need to successfully complete this course.

- **Four in-course exams** will be given during the semester. At the end of the period, the lowest grade will be dropped. The average score from the remaining three exams will count 65% of your final grade. You are strongly encouraged to take all four ‘in-course’ exams.

- **Eleven Quizzes** will be given during the semester. These will be for a total of 10 points each. **At the end of the period, only ten quizzes will count for 15% of the**
**final grade.** The 11\textsuperscript{th} quiz will be used either to replace one of your lowest grade (among the 10 quizzes) or to substitute for any missed quiz.

- At the end of the semester, you will take a **cumulative final exam** (chapters 1-11) which will count for **20%** of the final grade. **The final exam will consist of 60 questions (one point each question) and will be for 1hr 40 minutes.** The University is still finalizing the final exam schedule which should appear at [https://registrar.gsu.edu/registration/semester-calendars-exam-schedules/](https://registrar.gsu.edu/registration/semester-calendars-exam-schedules/)

### Getting Help and Accessing Resources

Note that this is a **100%** online course. Here are a few tips to get you started:

#### Contacting Your Instructor
I prefer to be contacted by email (**jmutanyattacomar@gsu.edu**). I will respond within 24 hours. Please send emails to me from your GSU e-mail account (e.g., **jcole1@student.gsu.edu**). Please put the course name in the subject of your email.

**Please do not email me from iCollege**

**NOTE:** Please note that I do not usually check emails on Saturdays and Sundays, therefore make sure to ask any questions you may have during the week.

#### Accessing the Course
You can login to your course via iCollege using your GSU CampusID and password. For help finding and pinning your course in iCollege, please review [iCollegeNow!’s finding and Pinning Your Course page](https://iCollegenow.com/finding-and-pinning-your-course).

#### Activating iCollege Notifications
In iCollege, click on your name then click on “notifications” and select the notifications in the list given. The most important notification you must select is the “announcements-new announcements available”. I will be putting daily announcements to remind you of due dates for quizzes and exams etc. Please feel free to select as many notifications as possible.

**How to view answers for graded quizzes or exams on iCollege**
To view answers for graded quizzes/exams: Click the down arrow next to the quiz/exam, then click on submission reports then attempts.

#### Technology Questions
For technology-specific questions and issues, please contact the IIT Help Desk at **help@gsu.edu** or **404-413-4357**.

For iCollege-specific questions you may also use the USG’s 24/7 D2L helpdesk: [https://d2lhelp.view.usg.edu/s/](https://d2lhelp.view.usg.edu/s/)

#### Required Textbook and Optional Materials
The following resources are required for this course:
**Required Text:**
   It consists of questions for both Organic Chemistry I &II. Although the final exam in this online course will not be ACS, this book will help enhance your strategies in problem-solving skills.
   There is a 1st and 2nd Edition of this book. You can purchase either one of the two versions (or both if you would like to get extra practice).
3. **Molecular Kit:** This kit can be purchase from Andrus Educational Supplies or Duluth labs. It is helpful for chapter 5: Stereochemistry.

**Optional Text:**
1. **FREE Alternative Textbook :** Online Organic Chemistry Text and Material by William Reusch’s written for MSU. This text can be found by clicking here.
   This text follows Creative Commons Licensing which you can review here

**Are There Any Required Meetings?**
No. There will be no face-to-face meetings. This course is 100% online and asynchronous. However, to help you with time management, I suggest that you prepare a weekly schedule and block specific times for all your courses and other activities like work, rest etc. Sticking to this schedule will help you manage your time effectively.

**Are There Any Additional Fees?**
This course has no additional fees.

**How Do I Succeed in this Course?**
If this is your first time taking an online course, you will need to practice time management skills. Below are some tips to help you achieve this. **Examples of what successful students should expect to do in this course:** (modified from 4Faculty.org at Santa Barbara City College)

**Responsibilities:**
Successful students, ones who earn A’s and B’s, follow both oral and written instructions. The syllabus and assignment sheets are the primary sources of instructions in any college course, so successful students read them carefully and refer to them regularly. They also check iCollege daily for class announcements and updates.
Instructions:
Successful students write down any instructions given orally by the instructor; they also are careful to make sure that they have taken accurate notes and ask questions before due dates. They also read and re-read written instructions and ask questions for clarification as needed. I suggest that you set aside at least 3 hours/day to watch videos and write notes on provides PowerPoint slides, review the notes, and work on assigned problems. You will strengthen your problem-solving skills if you begin working on assigned textbook problems, followed by ungraded worksheets uploaded on iCollege and finally questions in the ACS study guide book.

Information:
Successful students look up information first so that they ask informed questions, not questions they already have the answers to. If they cannot find the answers, they contact the instructor after class, during office hours or by email before taking quizzes and exams.

Course Policies
I have developed several policies that seem to work well in this course. Please review these very closely. You will have an opportunity to voice your opinion on these policies and other aspects of the course during the semester scheduled online office hours (via webex).

Attendance Policy
Class will never be cancelled unless an official from the Chemistry Department gives the class personal notification. Don’t assume a note to be enough without checking the Department’s office.

The University requires that faculty members must, on a date after the mid-point of the course to be set by the Provost (or his designee)

1. Give a WF to all students who are on their rolls but are no longer taking the class and
2. Report the last day the student attended or turned in an assignment. Students who are withdrawn may petition the Departmental Chair for reinstatement into their classes.

Make-up Quiz and Exam Policy
If for some substantial reason you cannot take a quiz or an exam at the scheduled time, please feel free to contact me by email prior to the due date, or exam date.

Athletes
If you are an athlete, please email me proper documentation, BEFORE you leave for a game/tournament to be able to make-up the work for that week.

Religious Holy Day
A student who intends to observe a religious holy day should make that intention known in writing to the instructor prior to the absence. A student who is absent for
the observance of a religious holy day shall be allowed to take an exam or complete an assignment scheduled for that day within a reasonable time after the absence.

Grades Policy
If you have any concerns about the way your exam was graded, for example, if you believe your answer is correct and it was graded wrong, please feel free to email me and I will take a look at your answer. I strongly encourage every student to look at all graded quizzes and exams. Please email me to schedule a WebEx meeting to go over all the questions you may have not answered correctly. This is good practice to make sure you do not get the same concepts incorrect on the next exam.

Final letter grades will only be available on PAWS/GoSolar. They will not be posted on iCollege. Please note that grades cannot be given to students by phone.

Course Evaluation
Your constructive assessment of this course plays an indispensa ble role in shaping education at Georgia State. Upon completing the course, please take time to fill out the online course evaluation.

Academic Honesty
Chemistry Departments Student Integrity Policy: The Department of Chemistry follows the University policy on academic honesty published in the “Faculty Affairs Handbook” and the “On Campus: The Undergraduate Co-Curricular Affairs Handbook”.

All exams and quizzes taken must represent the student’s individual, unaided effort.
1) Unauthorized sharing/collaboration on assignments using any means including social media/group messaging apps such as GroupMe or Slack constitutes academic dishonesty and will be reported as such to the Department’s Chairman and the Dean’s office for appropriate action.
2) KNOWING about such sharing and not reporting it also constitutes academic dishonesty especially if close review of the evidence reveals sufficient evidence that implicates all individuals responsible.
3) Please remember that there is no statute of limitations on academic dishonesty, so if it turns out after grades are reported that there was cheating or knowledge of cheating that was unreported, grades can be changed after the fact.

GSU Policy Prohibiting Students from Posting Instructor-Generated Materials on External Sites
The selling, sharing, publishing, presenting, or distributing of instructor-prepared course lecture notes, videos, audio recordings, or any other instructor-produced materials from any course for any commercial purpose is strictly prohibited unless explicit written permission is granted in advance by the course instructor. This includes posting any materials on websites such as Chegg, Course Hero, OneClass, Stuvia, StuDocu and other
similar sites. Unauthorized sale or commercial distribution of such material is a violation of the instructor’s intellectual property and the privacy rights of students attending the class, and is prohibited. This policy was approved by the GSU Faculty Senate on August 21, 2020.

Other Policies

Students Requiring Testing Accommodations

Students who wish to request testing accommodations may do so by registering with the Access & Accommodations CEnter (AACE). Students may only be accommodated upon issuance by AACE of a signed Accommodation Plan and are responsible for providing a copy of that plan to instructors of all classes in which an accommodation is sought.

FERPA

In keeping with USG and university policy, this course website will make every effort to maintain the privacy and accuracy of your personal information. Specifically, unless otherwise noted, it will not actively share personal information gathered from the site with anyone except university employees whose responsibilities require access to said records. However, some information collected from the site may be subject to the Georgia Open Records Act. This means that while we do not actively share information, in some cases we may be compelled by law to release information gathered from the site. Also, the site will be managed in compliance with the Family Educational Rights and Privacy Act (FERPA), which prohibits the release of education records without student permission.

Basic Needs Statement

Any student who faces challenges securing their food or housing and believes this may affect their performance in the course is urged to contact the Dean of Students for support. Furthermore, please notify the professor if you are comfortable in doing so. This will enable us to provide resources that we may possess. The Embark program at GSU provides resources for students facing homelessness and Panther’s Pantry provides resources for students facing food insecurity.

Diversity, Inclusivity, and Respect Syllabus Statement

Students in this class are encouraged to speak up and participate during class meetings and online class discussions. The students in our class represent a diversity of individual beliefs, backgrounds, and experiences, and therefore, every member of this class must show respect for every other member of this class.
