General Notes:

1. It is very important to know that you should NEVER miss a lab. Missing lab or prelab will result in loss of points. Failure to complete 2 labs will result in failure of the course.

2. One quiz can be dropped. This will result in the safety quiz counting twice to make up for the missed/dropped quiz. There are no makeups for a lab report. If you do not complete the lab report, you will receive a grade of a zero.

To pass the lab: Students MUST complete at least 4 experiments, minimum of 4 quizzes and 4 lab reports. Introduction/safety session is required for the course, but not counted as an experiment. Failure to do any of these does not result in an incomplete, it results in a grade of an F for the 1212K course.

Academic Honesty: Please see: https://deanofstudents.gsu.edu/files/2019/07/Academic-Honesty-Policy.pdf

AACE: Students who wish to request accommodation for a disability may do so by registering with the AACE. Students may only be accommodated upon issuance by AACE of a signed Accommodation Plan and are responsible for providing a copy of that plan to instructors of all classes in which accommodations are sought.

Students with AACE accommodations should then contact their instructor during the first week of classes to discuss any accommodations that need to be made.
