

# Principles of Chemistry I

## Chem 1211K Fall 2019

**Instructor:** Dr. Tarushee Ahuja  
**Email:** [tahuja1@gsu.edu](mailto:tahuja1@gsu.edu)  
**Office:** 203 Courtland North  
**Phone:** 404-413-6003  
**Office Hours:** Mondays, Wednesdays 12-1 pm  
Tuesdays, Thursdays 4-5 pm  
(Other time- email for an appointment)

**Lecture Times:** MWF 11.00-11.50 am  
**Location:** Room 101 PSC

**Text:** Chemistry: A Molecular Approach with Mastering  
in Chemistry, 5<sup>th</sup> Edition  
By Nivaldo Tro

**Supplement:** Preparing for Your ACS Examination in General  
Chemistry:  
The Official Guide  
By Lucy T. Eubanks and I. Dwaine Eubanks  
ISBN-13:9780970804204 ISBN-10:0970804202

### Online

**Material:** icollege

### Required

**Materials:** A scientific non programmable calculator

Email is the best way to communicate with the instructor. While sending an email, write the name of the course, and then the subject. For example, if you want to write about arranging an appointment, the subject should be "1211- appointment". \*Please send email from GSU email.

### Points Distribution

In Class Exams (Best 3 of 4)	300 (100 points each)
Online Quizzes* (Best 8 of 10)	80 (10 points each)
In Class Surprise Quizzes (any #)	20**
Laboratory Grade	200***
Final Exam (ACS standardized)	200

---

800

---

\*10 online quizzes will be on icollege after every chapter.

\*\* Surprise quiz can be given on any day of the semester. It will be 10 min quick quiz

# Principles of Chemistry I

## Chem 1211K Fall 2019

---

\*\*\* You must attend your laboratory section – at the end of the semester your laboratory instructor will give me a list of students in their section and their laboratory grades.

### Grading

Total Course Points Earned	Total Course Points Earned (%)	Letter Grade
760-800	95-100	A+
720-759	90-94	A
696-719	87-89	A-
680-695	85-86	B+
640-679	80-84	B
624-639	78-79	B-
584-623	73-77	C+
520-583	65-72	C
480-519	60-64	C-
456-479	57-59	D
<456	<57	F

No make-up examination or quizzes will be given. Missed examinations and quizzes will be recorded as a zero. The final examination is a standardized test (and multiple choice) provided by the American Chemical Society (ACS) and is nationally normalized.

To receive a **PASSING** grade in this course, the student **MUST**

1. Take the final examination of the lecture
2. Meet certain minimum requirements in the laboratory portion of the course:
  - a) Submit final lab report
  - b) Take the lab final exam (see lab manual for further details)

### Notes:

- Instructor reserves the right to seat students during examinations.
- **ONLY NON-PROGRAMMABLE** calculators are allowed. Use of programmable calculators in class and lab is considered academic dishonesty

**Examinations:** The best 3 of the 4 examination (multiple choices format) grades will be counted toward the student's grade. Each student is allowed to drop one exam grade. There will be no make-up exams.

**Online Quizzes:** Quizzes will be given online on icollege after each chapter is done. The date will be announced in class and on icollege. There will be total 10 quizzes for 10 chapters. There will be no make-up (or advance) quizzes.

**In class Quizzes:** There will be few in class surprise quizzes. It may be given on any day of lecture. It will be short and for 10 min and can be done with discussion of your partners.

# Principles of Chemistry I

## Chem 1211K Fall 2019

---

**Reading assignments:** At the end of some lectures, the instructor will allot reading assignments from the text book. Some of the questions from the quizzes and exams will be directly taken from reading assignments. It is in the best interest of the students to complete the reading assignments on time.

**Self-assessment quiz and Exercise in the text book:** There are Self-assessment quiz and Exercise at the end of each chapter in the text book, instructor will pick up some questions for practice. Some of the questions from the quizzes and exams will be directly taken from them.

**Icollege:** icollege will be used for posting class materials including lecture notes, study materials and quizzes. Announcements related to class and grades will also be posted on icollege. **Students need to check icollege often.** In addition, icollege will be used for posting discussions regarding important concerns about the class.

**Class Attendance and Preparation:** Students are responsible for class preparation and for any material presented in the course of the lectures whether or not it is contained in the textbook. Chemistry is a highly structured course, with each new topic based on others previously developed. Thus it is critical for students to keep consistently up-to-date in their readings and assignments. To fall even one class period behind is to risk considerable difficulty in mastery of future material. Therefore students should

- review previous material, especially if it was not perfectly understood
- complete reading assignments before the lecture in which the topics are covered, or at least immediately after the lecture
- complete assigned problems and exercises on time, with an emphasis on mastery of concepts and principles involved rather than looking for a formula that will give the expected answer (remember that the question can be asked in a different way and not just with different numbers!)

Students are expected to attend all classes and laboratories (even when attendance is not recorded) and are responsible for all assignments and materials presented. In the event of unavoidable absences, it is the responsibility of the student to find out what materials were covered or what assignments made in his or her absence.

**Some Examples of Unacceptable Student Conduct:**

- Not following the testing procedures as instructed.
- Talking while your instructor is lecturing.
- Arguing with the instructor about student conduct.
- Not sitting up straight with paper directly in front of you during an exam.
- Not keeping your scantron or exam papers covered during an exam.
- Using a disrespectful tone of voice, harsh words or profanity.

# Principles of Chemistry I

## Chem 1211K Fall 2019

---

- Making inappropriate gestures of any kind.
- Leaving class before the lecture is over with no reasonable reasons.
- Letting your cell phone ring audibly during a lecture or exam.
- Having a cell phone available during a quiz or test.
- Not having your student ID for a quiz or test.
- Arriving late for lecture or for an exam.
- Allowing your laboratory data or answers to be copied.
- Allowing your homework, quiz, and exam answers to be copied.
- Using any electronics during lecture and causing distractions.

**Cell Phones and Beepers: consideration of your classmates, turn off all sound alerts during every lecture and examinations. If you must have the cell phone during the daily lectures, please set it to ring on vibrate mode (silent). If you need to be on call during an exam, please inform the instructor and leave the phone with the instructor. No cell phones as calculators during quizzes/exams.**

The University requires that faculty members must, on a date after the midpoint of the course to be set by the Provost (or his designee)

1. give a WF to all those students who are on their rolls but no longer taking the class and
2. report the last day the student attended or turned in an assignment.

**Chemistry Department Policy on Student Conduct and Integrity:** The Georgia State University Policy on Academic Honesty is in force in this course. This includes but is not necessarily limited to infractions in the area of plagiarism, cheating on quizzes & examinations, unauthorized collaborations, falsification, and multiple submissions. This policy is published in On Campus: the Student Handbook, which is available to all members of the university community.

All examinations must represent your individual effort, with no unauthorized aid. To either give or receive unauthorized information during an examination or a quiz is cheating, as is the use of any unauthorized supplementary material. In addition all laboratory work performed in conjunction with this course must represent your individual effort. Only original data obtained by your own in-laboratory experimentation are permitted to be used, except when expressly authorized by your laboratory instructor. Data from supplementary sources, handbooks, reference literature, etc. must be clearly referenced (title, author, volume, pages(s), etc.). Falsification or destruction of data constitutes cheating as well. Conduct disruptive of class, examinations, or laboratories or falsification or destruction of information related to chemistry courses will be taken as a violation of the policies of the Board of Regents of the University System of Georgia and the Georgia State University Student Code of Conduct, Section 6.0. Any suspected offenses may be referred to the Chairman of the Department or the Dean of Students for appropriate disciplinary action.

# Principles of Chemistry I

## Chem 1211K Fall 2019

**Syllabus and Assignments:** The foregoing provides a general plan for the course, deviations from which may be necessary. The instructor will announce any such changes in class. **One of the best ways to prepare for examinations in general chemistry is to work as many problems as possible. This includes problems from the end of chapter problem sets as well as the Mastering General Chemistry Problem sets.**

### Tentative Schedule [There are 10 chapters to cover (Chapter 1-10)]

Week of	Monday	Wednesday	Friday
August 26 <sup>th</sup>	Intro-Lecture	Lecture	Lecture
September 2 <sup>nd</sup>	<b>No Class-Labor DAY</b>	Lecture	Lecture
September 9 <sup>th</sup>	Lecture	Lecture	Lecture
September 16 <sup>th</sup>	Lecture	Lecture	<b>EXAM-1</b>
September 23 <sup>rd</sup>	Lecture	Lecture	Lecture
September 30 <sup>th</sup>	Lecture	Lecture	Lecture
October 7 <sup>th</sup>	Lecture	Lecture	<b>EXAM-2</b>
October 14 <sup>th</sup>	Lecture	Lecture	Lecture
October 21 <sup>st</sup>	Lecture	Lecture	Lecture
October 28 <sup>th</sup>	Lecture	Lecture	<b>EXAM-3</b>
November 4 <sup>th</sup>	Lecture	Lecture	Lecture
November 11 <sup>th</sup>	Lecture	Lecture	Lecture
November 18 <sup>th</sup>	<b>Thanksgiving Week</b>		
November 25 <sup>th</sup>	Lecture	Lecture	<b>EXAM-4</b>
December 2 <sup>nd</sup> <sup>h</sup>	Lecture	Lecture	Lecture
December 9 <sup>th</sup>	<b>Review</b>	<b>Final Exam (10.45 am)</b>
