

Text: Chemistry: A Molecular Approach with Mastering Chemistry, 3^{ed} by Nivaldo Tro

ISBN-10:0321804716 ISBN-13:9780321804716

Supplemental: Preparing for Your ACS Examination in General Chemistry : The Official Guide, by Lucy T. Eubanks and I. Dwaine Eubanks, ISBN-13: 9780970804204
ISBN-10: 0970804202

Required Materials:

- 1) A scientific, non-programmable calculator
- 2) A stitched binding composition notebook for laboratory
- 3) Lab safety glasses or goggles

First Lab Day : Tuesday September 2nd.

Instructor: Dr. Tracy A. Kerr

Email: I am told I will get one soon!

Send email from your GSU email account only, and mention the course in the subject.

Office: Courtland North 210

Office Phone : (404) 413-5781

Office Hours: M 12:00 pm - 2:00 pm, T 12:00 pm - 1:00 pm

(Other times are available by appointment)

Lecture Time: M,W,F 11:00 am - 11:50 am

Lecture Room: 101 Petit Science Center

Point distribution

In Class Multiple Choice Exams (Best 3 of 4)	210
In-class quizzes (Best 3 of 4)	75
Mastering Chem Homework	115**
Laboratory Grade	200*
Final exam (ACS standardized test)	200

800

*You **must** attend your laboratory section – at the end of the semester your laboratory instructor will give me a list of students in their section and their grades.

**Mastering Chem Homework points will be calculated based on percentage.

Week of....	Monday	Wednesday	Friday
August 25 th	Intro Lecture	Lecture	Lecture
September 1 st	*No Class*	Lecture	Quiz 1 and Lecture
September 8 th	Lecture	Lecture	Lecture
September 15 th	Lecture	Lecture	Exam 1
September 22 nd	Lecture	Lecture	Lecture
September 29 th	Lecture	Lecture	Quiz 2 and Lecture
October 6 th	Lecture	Lecture	Exam 2
October 13 th	Lecture October 14 th :Midpoint	Lecture	Lecture
October 20 th	Lecture	Lecture	Quiz 3 and Lecture
October 27 th	Lecture	Lecture	Exam 3
November 3 rd	Lecture	Lecture	Lecture
November 10 th	Lecture	Lecture	Lecture
November 17 th	Lecture	Quiz 4 and Lecture	Lecture
November 24 th	*No Class*	*No Class*	*No Class*
December 1 st	Lecture	Lecture	Exam 4
December 8 th	Lecture	FINAL EXAM 10:45 am	

* Midpoint on October 14th, 2014 is the last day to drop a class with a W

Final Exam is Wed. Dec. 10th, 2014 starting at 10:45 am. It is the ACS standardized exam. Duration of exam is 110 min. It is a comprehensive exam covering Chpt 1-10.

Grading:

Points	Percent	Letter Grade
760 - 800	95% - 100%	A+
720 - 759	90% - 94%	A
696 - 719	87% - 89%	A-
680 - 695	85% - 86%	B+
640 - 679	80% - 84%	B
624 - 639	78% - 79%	B-
584 - 623	73% - 77%	C+
520 - 583	65% - 72%	C
480 - 519	60% - 64%	C-
456 - 479	57% - 59%	D
<456	<57%	F

No make-up examinations or quizzes will be given. Missed examinations and quizzes will be recorded as a zero. The final examination is a multiple choice test provided by the American Chemical Society (ACS) and is nationally normalized.

To receive a passing grade the student MUST:

1. Take the final examination of the lecture
2. Meet certain minimum requirements in the laboratory portion of the course:
 - a) Submit a final laboratory report
 - b) Take the final lab examination
(see lab manual for further details)

The instructor reserves the right to seat students during examinations and quizzes

Only non-programmable calculators are allowed. Use of programmable calculators in class and in lab is considered academic dishonesty.

Examinations: The best 3 of the 4 examination grades will be counted toward the student's grade. Each student is allowed to drop one exam grade. There will be no make-up exams.

In-class quizzes: The best 3 quiz grades out of 4 will be counted toward the final grade. There will be no make-up quizzes. Missed quizzes will be recorded as zero.

Homework: Homework should be submitted online using "Mastering General Chemistry". The course code and further instructions will be posted in a file on D2L. Homework that is submitted in class will not be accepted.

Desire2Learn: This site will be used for posting class materials including lecture notes and student materials. Announcements related to class will also be posted on our class Desire2Learn site. All of your grades (except for your final exam and overall final grade) will be posted on Desire2Learn. Students should regularly check their class D2L sites at least twice a day for class materials.

Class Attendance and Preparation: Students are responsible for class preparation and for any material presented in the course of the lectures *whether or not it is contained in the textbook*. Chemistry is a *highly* structured course, with each new topic based on others previously developed. Thus it is *critical* for students to keep *consistently* up-to-date in their readings and assignments. To fall even one class period behind is to risk considerable difficulty in mastery of future material. Therefore students should

- 1) review previous material, especially if it was not perfectly understood
- 2) complete reading assignments *before* the lecture in which the topics are covered, or at least immediately after the lecture
- 3) complete assigned problems and exercises on time, with an emphasis on mastery of concepts and principles involved rather than looking for a formula that will give the expected answer (*remember that the question can be asked in a different way and not just with different numbers!*)

Students are expected to attend all classes and laboratories (even when attendance is not recorded) and are responsible for all assignments and materials presented. In the event of unavoidable absences, it is the responsibility of the student to find out what materials were covered or what assignments were given in his or her absence.

Some Examples of Unacceptable Student Conduct:

- Not following the testing procedures as instructed.
- Talking while your professor is lecturing.
- Arguing with the professor about student conduct.
- Not sitting up straight with paper directly in front of you during an exam.
- Not keeping your scantron or exam papers covered during an exam.
- Using a disrespectful tone of voice, harsh words or profanity.
- Making inappropriate gestures of any kind.
- Leaving class before the lecture is over.
- Letting your cell phone ring audibly during a lecture or exam.
- Having a cell phone available during a quiz or test.
- Not having your student ID for a quiz or test.
- Arriving late for lecture or for an exam.
- Allowing your laboratory data or answers to be copied.

Cell Phones and Beepers: In consideration of your classmates, turn off all sound alerts during every lecture and examinations. If you must have the cell phone during the daily lectures, please set it to ring on vibrate mode (silent). If you need to be on call during an exam, please inform the instructor and leave the phone with the instructor. You may not use cell phones as calculators during exams/quizzes.

If you wish to use a computer to view class notes or to take class notes, you are required to sit in the last three rows of the lecture hall. Believe it or not, laptops prove to be a distraction in classrooms and hand written notes more beneficial to the student.^{1,2}

The University requires that faculty members must, on a date after the midpoint of the course to be set by the Provost (or his designee)

1. give a WF to all those students who are on their rolls but no longer taking the class and
2. report the last day the student attended or turned in an assignment.

All examinations must represent your individual effort, with no unauthorized aid. To either *give* or *receive* unauthorized information during an examination is cheating, as is the use of *any* unauthorized supplementary material. In addition all laboratory work performed in conjunction with this course must represent your individual effort. Only original data obtained by your own *in-laboratory* experimentation are permitted to be used, except when *expressly authorized* by your laboratory instructor. Data from supplementary sources, handbooks, reference literature, etc. must be *clearly referenced* (title, author, volume, pages(s), etc.). Falsification or destruction of data constitutes cheating as well. Conduct disruptive of class, examinations, or laboratories *or* falsification or destruction of information related to chemistry courses will be taken as a violation of the policies of the Board of Regents of the University System of Georgia and the Georgia State University Student Code of Conduct, Section 6.0. Any suspected offenses may be referred to the Chairman of the Department or the Dean of Students for appropriate disciplinary action.

The foregoing provides a general plan for the course, deviations from which may be necessary. The instructor will announce any such changes in class.
