

CHEM 8960
Chemistry Lab Supervision
Spring 2014

Instructor:

Dr. Jeremiah D. Harden
301 Petit Science Center
404-413-5560
jharden@gsu.edu

Lecture Schedule:

Every Friday 1:30-3:30 in 218 NSC

Office Hours:

Monday 1-4
Wednesday 1-4

Course Objective:

This course provides information and training for working in academic laboratories as well as general information on teaching and grading. It will provide the chemical safety training needed by current chemistry graduate students. This course will also inform incoming graduate students of the teaching responsibilities for labs, and will provide introductory information on the freshman and organic laboratory classes. It will provide discussion of topics that will aid in both teaching and research lab work.

Grading:

This is a credit/non-credit course. Attendance of all the modules listed in the course syllabus must be satisfactorily completed in order to receive a passing grade. Along with the listed modules Students are required to complete both online CITI training and online standard and chemical Right to Know training modules. These assignments will be discussed during the lecture course.

Tentative Schedule of Topics

Date	Week	Lecture Topics	Notes & Activities
1/17	1	No Class	
1/24	2	Introduce CITI training and Right to Know training Teaching Chemistry Labs at GSU	Dr. Harden
1/31	3	Emergency Response Plan	Rich Muller
2/7	4	Hazard Communication/ Chemical Safety	Jamar Simmons
2/14	5	Chemical Waste Disposal	Jamar Simmons
2/21	6	PPE Training	Rich Muller
2/28	7	Fire Extinguisher Training	Jennifer McWhorter
3/7	8	Human Resources Week 1	Annette Butler
3/14	9	Human Resources Week 2	Annette Butler
3/21	10	No Class	Dr. Harden
3/28	11	GSU Labs	Dr. Harden
4/4	12	Notebooks and Data Collection	Dr. Harden
4/11	13	Plagiarism	Dr. Harden
4/18	14	HAZMAT/Containment Exercise	Dr. Harden
4/25	15	Introduce CITI training and Right to Know training Teaching Labs at GSU	Dr. Harden
